**4.Science**

Topic: Conservation of Plants and Animals

**Objective:**

To understand the importance of conserving flora and fauna, identify threats to biodiversity, and suggest ways to protect our environment.

**Activity Guidelines for Students:**

**Title Page**

Write the title: Conservation of Plants and Animals

Include your name, class, section, and roll number

Decorate it with drawings or stickers of animals, trees, forests, etc.

### **Introduction**

Write a short paragraph (5–6 lines) explaining:

What is conservation?

Why is it important to protect plants and animals?

### **Do any two activities of your choice**

#### **1. Causes of Loss of Biodiversity**

List and briefly explain:

Deforestation

Habitat destruction

Poaching

Pollution

Climate change

#### **2. Ways to Conserve Plants and Animals**

Write at least 5 points:

Afforestation and reforestation

Setting up wildlife sanctuaries and national parks

Banning hunting and poaching

Recycling and reducing plastic use

Raising awareness among people

#### **3. Real Examples**

Mention any two of the following with pictures (drawn or printed):

A national park in India (e.g., Jim Corbett, Kaziranga)

An endangered species (e.g., Bengal tiger, Olive Ridley turtle)

A successful conservation program (e.g., Project Tiger, Chipko Movement)

#### **4. Your Role in Conservation**

Write a few lines on how you as a student can contribute.

Examples:

Plant more trees

Avoid wasting paper

Say no to plastic

Spread awareness
